THE DAILY CLOSE

THE COMMERSIONAL GLODE. In surrendering my interest in the organ of a rest political party. I cherished the purpose of continuing the Congressional Globe, and, if persible, at time, t perfect it into a full history of the action of Congress, giving the debuces accurately and furily with the proceedings—all reamped with the tently of an official record. From the passage in the letter of tien. Washinston, which I have quoted, it will be perceived that he thought this office might be combined with that of a resular newspaper, and combined with that of a remar newspaper, and it is certain that the avidity of the public for news of the less important kind, greatly con-tributes to give wings to the weightier matter

Which may be called congressional news.

Having succeeded in my purpose of perfecting the reports of the debates in congress and giving them the efficiel stamp, I now propose to send them abroad, in connection with the news of the cay, in such haste as shall outstrip full and accurate intelligence sent from the seat of Government in any other form whatever. It Government in any other form whatever. It will even anticipate the straps of news forwarded to eiters with it two hundred and lifty miles of Wissington by telegraph. Before the events thus transmitted are published in the morning papers, for instance, of the city of New York, the clube containing them will have reached the part office of that city by the Express Mail of the previous night. The process by which this wait be effected. I now key have the public of the previous results. before the public.

I will have a corps of sixteen reporters in congress; each in accession will take notes during five minutes, then tetire, prepare them far the prose, parthean stip by stip in the hands of compositors, and thus, while a debate is going on in congress it will be put in type, and in a few minutes after it is ended it will be in print. I shall by this means be enabled to send by the Express Mail of 6 o'clock p. m. for the East, West, and North, and by that of 9 o'clock p. m. for the south, all the proceedings of con-gress up to the ordinary hour of adjournment. Thus the accurate debans of congress will reach the cities two hundred and fifty miles from the capital before their daily morning pa pers are in circulation.

The miscellane and news I shall be careful to gather from remote sections of the country by telegraph. I will obtain from the Executive Departments, through official sources, the matters of moment transacted in them, and, thro agents employed for the purpose, all the city news of consequence in still, but time to be put into the Globe and maded in the Express Mail trains. In this way I hope to create a new era in the dissemination of news from Washington.
Hitherto no newspaper has attempted to give suffernite recognition things done at Washington before the public mind at a distance had received its first impressions from treespondble telegraphic disparenes, or by letter whiera bibed by peculiar views.

Washington has now became so great a cen

ter of political interest during all the year—the proceedings of the Executive Departments and the information collected by them even during the recess of congress is of so much importance to the interests of every secretary of the county

that I shall common the publication of the
daily paper permanently, want a view to become the vehicle of the eathest and most correct intelligence.

R. E. SELLERY VERMIFUGE LET PHYSICIANS SPEAK. Sellers' Vermituge is the best in use.-

LICENSO STATION, Ky., Dec. 17, 1845.

MR. R. E. SELLERS:—I have the pleasure to inform you. that I have used, in my practice, your celebrated Vermifuge with the most happy results. I have formerly used Fahnestock', but being persuaded to try yours, I have found it far supreior in every respect, and can say, without the fear of contradiction, that your Vermifuge possesses more virtue than any I ever used, and most cordially recommend it to the attention of the public. I will state a case where I gave one vial of your Vermifuge. My brothers child was pinningand wasting to a mere skelers child was piningand wasting to a mere skel-eton. In 36 hours after I gave the Vermituge, the enormous quantity of upwards of six hundred worms were passed. The child, that was

This certifies that I have kept on hand, and used in my practice, R. E. Seilers' Vermifuge, for the two past years. I am confident in saying it has not failed, in a single instance, to relieve children and adults translated with lieve children and adults troubled with worms; in many instances it has brought away large quantities. I am confident it is the best worms medicine in use. All that is required to give it reputation in any family, is to give it a fair trial. R. H. WILSON, M. D.

Yours, respectfully, D. COUGH, M. D.
